Desalite's Nature Club

Report on National Environment Youth forum 2021

Title	National Environment Youth Forum 2021
Date of Event(s)	15, 23, 26 and 27 Jun 2021
Department / Association / Cell / Committee	Desalite's Nature Club
Venue (Mention the platform if it is Online)	Zoom Platform
Number of Participants	3
Target Audience	National Level Competition organised by Government of India

"Youth instinctively understand the present environment-the electric drama. It lives mythically and in depth" - Marshall McLuhan

Youth are the backbone of the nation. They have the power to mobilise change and protect the environment. They should participate actively in all relevant levels of decision-making processes on environment sustainability because it affects their lives today and has implications for their future. Youth are increasingly using the power of their collective voice to advocate, lobby and lead campaigns towards adopting environment friendly practices and policies. As more youth grow up in a world characterized by advanced technologies and information sharing, many are harnessing this opportunity to create innovative, sustainable environmental solutions. These understandings laid the seed for the National Environment Youth Forum that was held at the University Level, Regional Level and All-India Level.

More than 25,000 students from 250+ affiliated colleges and 75+ universities across India Participated in the National Environment Forum 2021, organized in the virtual mode by [illegible] 22, 2021, Manav Rachna International

Institute of Research and Studies organized the National Environment Youth Forum 2021 under the aegis of Paryavaran Sanrakshan Gatividhi - One Nation One Drive.

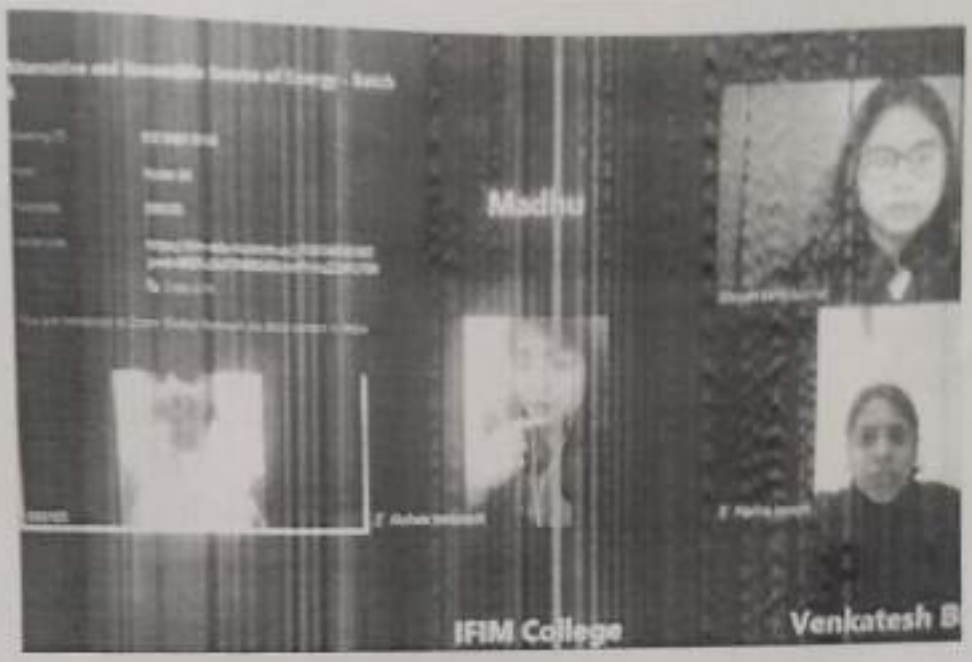
On behalf of Devalite's Nature's Club, the prelims were conducted on 15 Jan 2021. Each participant was given 2-3 minutes for opening statement followed by discussion on the shortlisted topics like Natural Resource Management in Urban Economies, Alternate sources of energy & India energy, New frontiers of green technology for climate action and the like. The selected contestants will be sent to the state level competition, conducted online. Three students were selected, and they were Rency Mathew 2nd year BSC (CJP), Sr.Florina Joseph 2nd year BSC (CJP) and Kavya G.L 2nd year BA (HEP). These three students represented the college in the regional level competition held on 23 Jan 2021 in zoom platform.

The regional Level competition was on the topic 'Alternate and Renewable sources of energy'. There were 47 participants contesting from different parts of Karnataka. Each participant was given 2-3 minutes for opening statement followed by discussion on the major allocated area of deliberation. Participants had to speak about their Vision, Traditional Methods, Role of Technology, Innovation, and Individual Contribution. At the end of all the batches, the winners selected for the grand Finale were announced. Kavya G.L from 2nd year BA (HEP) was one among the finalists along with Namratha P from ISBR and Aishwarya Chandrashekar from Ramiah Institute of Management.

Ms. Kavya GL, III semester BA, St. Francis de Sales college, Bengaluru, represented the college in the grand finale held on 26 Jan 2021. The team of three from Karnataka discussed the Zonal Theme, Contribution of Youth and suggested Environmental Collaborative Solutions. Each team got 6 minutes to share their views followed by one question from any one team and one question from the Judge. Two minutes were given to answer the questions. The results of the grand Finale were announced in the presence of Prakash Keshav Javadekar, Minister of Environment, Forest and Climate Change and other dignitaries. Team Karnataka bagged the first prize and Kavya .G.L won the gold medal along with two others in her team. It was a proud moment for Kavya.G.L and St. Francis de Sales college, Bengaluru. She was awarded with a Gold Medal for her overwhelming

participation during the Grand Finale by sharing very relevant and important aspects concerning the theme - Finding collaborative solutions towards Sustainable Environment.

The college appreciated Kavya GL for her efforts and participation.



The zonal Level competition- Sr.Florina Joseph 2nd year BSC (CJP)

Announcement of result on 26 Jan 2021 before the elite gathering, online

Certificate and Gold Medal of Kavya.G.L

Report on Ragikana- Talk and Demo on 'Compost Grow and Cook'

Title	Talk and Demo on 'Compost Grow and Cook'
Date of Event(s)	24/01/2021
Department / Association	Desalite's Nature Club- BA/BSC/BCA
Venue	Live streaming of the session conducted at Ragi Kana through Google meet
Number of Participants	32
Target Audience	50

Resource Person(s) with qualification	Vasuki Iyengar
Books (if published)	Nil

Place of visit/ details of Industrial visit place (if applicable):	Nil

Talk and Demo on 'Compost Grow and Cook

Desalites Nature club live streamed a 'Talk and Demo session on Compost Grow and Cook' organised at *Ragikana*. The Speaker Vasuki Iyengar demonstrated various methods related to potting mix & planting, composting kitchen waste, preparing bio-enzymes, and community composting.

Vasuki Iyengar, the founder of Soil and Health, is a waste management specialist in Bengaluru with 4 years of experience in planning, implementing, and coordinating comprehensive waste management systems that are designed to maximize waste prevention, reuse, and recycling opportunities. Vasuki is also the HR director at I

Process Info – a Software product company developing safety applications for Oil and Natural Gas Industry. He holds an engineering degree in Computer Science and has served in IT industry for over 22 years.

He lives sustainably by composting kitchen waste using aerobic and anaerobic composting process. He is an expert in preparing bio enzyme, a cleaning liquid made from citrus peels. He believes and lives by the 4R principles – Refuse, Reduce, Reuse, Recycle.

The speech was live streamed through our college's official G-Suite. It was very useful for students to learn about waste management using kitchen waste to make it as compost for home garden. He even explained home-made pots that can be customised using plastic wastes at home. He enlightened the listeners by informing that onion and garlic can be effectively used to make compost for plants. The Speaker explained very clearly about starting terrace gardening, maintaining it and growing fresh vegetables and greens.

This program informed the participants of waste management ideas, preparing compost from kitchen waste for home gardening, usage of waste plastic wastes to programme make customised pots. The participants expressed their views in the feedback form given to them at the end of the program. They left the online meet with confidence and inspiration to go ahead with the feasible ways to compost, grow and cook from homemade harvest. Feedback was also collected at the end of the talk. Most participants considered the event as excellent and were satisfied about learning a great deal on sustainable living.

Desalite's Nature Club
Logo Design Contest Report 2020-2021

Title	Logo Design Contest
Date of Event(s)	15.03.2021
Department / Association /Cell / Committee	Desalite's Nature Club
Venue (Mention the platform if it is Online)	G-suit: Google Classroom
Number of Participants	21
Target Audience	50

Event Coordinators	Dr. Madhuramozhi. V, Prof. Indra Kumari V Prof. Madhusudan M

A logo should be distinctive enough to be easily recognized and simple. A good logo is memorable and makes a great first impression.

A competition to design a logo for the Desalite's Nature Club was organized by the Desalite's Nature Club. The competition was announced on 12th March 2021 via message and notification to all the students of St. Francis de Sales College. Registration form was sent to all the students to participate in Logo Design

Competition. Students were required to submit it electronically. Only one entry per person was allowed.

There was a huge response to the competition. 21 students registered to contest in logo designing for Desalite's Nature Club and due date was given to all the participants. It was informed to all the participants to upload their designs in G-suit-Google Classroom on or before 15.03.2021. Only 10 participant's designs were finally selected for the competition. For judging the competition, a committee was constituted. During the evaluation, the selection committee was impressed with the entries and found many Logos very engrossing. On the basis of the recommendations of the selection committee, of the logo design contest 5 designs were finalized. Vice Principal Rev. Father Jijo Jose finalized 3 logo designs and decided on the 3 winners. Based on the decision taken by vice principal, Mr. Vicky Prakash Raj from 1st semester B.Com, D section has been announced as 1st winner, Mr. Nanda Kumar K from 2nd B.com, C section has been announced as 2nd winner and Mr. Siva kumar C from 1st B.Com, D section has been announced the 3rd winner. The result was announced through mail on 21st March 2021 along with E-winning certificate. Participant certificates was given to all the participants in the Logo Design Contest.

he event was organized by Desalite's Nature Club coordinators Dr. Madhuramozhi V, Prof. Indra Kumari V, Prof. Madhusudan M. Overall participation was good.

Report on Desalite's Nature Club, Name the Tree Trail Event

Title	Name the Tree Trail Event
Date of Event(s)	
Department / Association	Desalite's Nature Club
Venue	St. Francis de Sales College. Electronic City Campus
Number of Participants	22
Target Audience	30

Faculty Involved	Dr.Madhuramozhi V, Prof. Madhusudan M, Prof. Indra Kumari V
Books (if published)	

Place of visit/ details of Industrial visit place (if applicable):	Tour around the campus in search of trees and their names

"Each tree, we will want to assert, is a wonder, a real-life marvel making a way through the world, fully deserving of admiration and respect on its own terms."- Christian Diehm

Desalite's Nature Club, St. Francis de Sales College, Electronic City, Bangalore, organised 'Name the Tree Trail' Event' in the month of March. Trees are important to our lives whether we notice them or not. They supply us with the boards we build our homes with and the oxygen we breathe. Most importantly, they exist not for our use but for their own purposes. Learning to differentiate specific trees can be tricky as leaves from two different species can look very similar, while a single species—or even a single tree—can have leaves that vary in size and shape. Identifying and distinguishing plant species offers a different way of seeing nature that could change our view of the world around us.

Owing to the vast canopy cover in the campus, the event was organised for two days from 18 to 19 March 2021. There were 22 participants who were divided into teams of 4 each to cover the tree trail in the campus. The student team ranged from different disciplines like commerce, science management and arts. Though they were divided in the course of study,

they were united as Desalite nature club volunteers in this event. Neither the beating sun nor hunger stopped them from tracing the tree trail.

On the first day, the focus was on the tree cover in front of the campus. Since it was pandemic time, only a few volunteers were summoned. The event began with the assembly of students at 9:30 am and had to be wound up at 12:00 pm due to Covid restrictions. The area covered on the first day includes, entrance, bird park, canteen, football court, hostel, and parking. Before the beginning of the event, Deputy Director of Lalbagh Botanical Gardens Bengaluru, G Kusuma, was contacted. She guided the team on the procedures involved in naming the trees. She also instructed to make use of website's like plant lens and plant net for verification. Many students considered it as a unique experience. They went around the campus, taking pics of the leaves, flowers and even the trunk of the trees and plants. They used the apps to identify the names of each focused image. After identification of the names, the trees were coded using the first letter of the botanical name and the total number of plants in the same species were also counted. For example, the palm trees lining the campus entrance were numbered 50.

The second day began with the assembly of Desalite's Nature Club volunteers at 9:30 am and went on till 12:00 pm. The last day covered the back side of the campus which includes, basketball court, areas surrounding the open auditorium, herbal park, butterfly park and the corridors. The second day event saw curious hands searching for the names of the variety of plant species located in the campus. They also took the help of the college Gardener, Mr.Thomas. He shared his expertise with the students and guided them as they went along identifying the scientific names of the plant and tree varieties in the campus. They were astounded at the medicinal value of certain plants in the herbal garden. Students were also informed of the variety of flowering plants that attract butterflies. Volunteers also identified certain new insects inhabiting the trees like rice ear bug and certain types of ants.

The event concluded with the students consolidating the data collected by them. The data contained more than 110 species of plants in the campus. It includes common tree types like palm, mango, jackfruit, papaya, tamarind, teak and coconut. There were herbs, shrubs, trees, creepers, bushes, and ornamental plants. Volunteers like Vicky Prakash Raj, Kavya.GL, and Mahalakshmi.R did significant contribution to the event by adding boards with botanical names and common names for the plants in the campus. Most students expressed that the event was excellent and had given them a different world view with

sustainable living at the centre of all life and living.

The students were guided by Faculty incharge for Desalite Nature's Club, Dr.Madhuramozhi V, Prof. Madhusudan M, Prof. Indra Kumari V. Certificates were issued to the participants after the event. The Desalite's Nature Club is thankful to the management of all the encouragement and support.

Desalite's Nature Club 2020-21
Art from Waste Competition Report

Title	Art from Waste Competition
Date of Event(s)	31.03.2021
Department / Association /Cell / Committee	Desalite's Nature Club
Venue	G-suit: Google Classroom
Number of Participants	38
Target Audience	50

Event Coordinators	Dr. Madhuramozhi V, Prof.Indra Kumari V, Prof. Madhusudan

"Creativity, as has been said, consists largely of rearranging what we know in order to find out what we do not know. Hence, to think creatively, we must be able to look afresh at what we normally take for granted."--- George Kneller.

BEST OUT OF WASTE is one such craft which follows this environmentally friendly principle and at the same time creates useful and picturesque objects out of waste products. In order to make students aware of uses of waste material, and to give them a lesson on reducing waste to save our future, 'Art from Waste' competition was organized virtually at St. Francis de Sales College, on 31st March 2020 by Desalite's Nature Club. The competition was announced on 21st March 2021 via message and notification to all the students of St. Francis de Sales College. Registration form was sent to all the students to participate in Art from Waste Competition. Students were required to submit it electronically. Only one entry per person was allowed.

Little hands and imaginative minds came together in a creative burst of energy. They prepared very creative and innovative models and art items from different waste materials. They used reusable and recyclable materials like newspapers, shoe boxes, bangles, ice cream stick's and much more. From these items, they created an amazing array of items and useful everyday objects leaving everyone totally impressed. The values like preservation, recycling, conservation, reduce, reuse etc. are imbibed on the young heart and minds by demonstrating this noble act of caring our environment.

There was a huge response to the competition. 38 students registered to contest 'Art from Waste' competition and due date was given to all the participants. It was informed to all the participants to upload their work in G-suit- Google Classroom on or before 07.04.2021. Only 5 participant's designs were finally selected for the competition. For judging the competition, a committee was constituted. During the evaluation, the selection committee was impressed with the entries and found many creativities very engrossing. Based on the decision taken, Mr. Balaji from 3rd semester B.Com, E section has been announced as 1st winner, Mr. Stephen Cyril from 1st semester B.com, D section has been announced as 2nd winner and Mr. Ashish John Sebastian from 1st semester B.Com, F section has been announced the 3rd winner. The result was announced through mail on 21st March 2021 along with E-winning certificate. Participant certificates was given to all the participants those who participated in Art from Waste competition.

The event was organized by the Desalite's Nature Club coordinator Dr. Madhuramozhi V. Prof.Indra Kumari V, and Prof. Madhusudan M

It helped the students to develop their fine motor skills while using different kinds of material and encouraged them to use waste material for making decorative and useable items. It was amazing to see how scrap could be

transformed into such useful and beautiful articles. The creativity and artistic streak of the students were observed.

Desalite's Nature Club-2021
Report on My Environment Quiz

Title	My Environment Quiz
Date of Event(s)	31 May 2021
Department / Association /Cell / Committee	**Desalite's Nature Club**
Venue (Mention the platform if it is Online)	Google meet and Slido.com
Number of Participants	85
Target Audience	100

Quiz Master	Prof. Madhusudan M, Department of Commerce
Event Coordinators	Dr. Madhuramozhi V, Prof. Indra Kumari V

Look Deep into nature and then you will understand everything better
-Albert Einstein

Environment stands for surrounding and it has been defined as the sum total of all conditions and influences that affect the development of an organism. Desalite's Nature Club decided to organise an Environment Quiz for all the UG and PG students of SFS college. The Quiz was on the Basic Concepts of Environment and Ecology in the form of multiple-choice questions. The answers arrived at would strengthen the participants knowledge on nature and how to nurture and live with it.

Environment includes sunlight, atmosphere, land, water, plants, animals, sea life, minerals, different species and everything that occurs naturally on earth. Terminologies like Air quality (air pollution, ozone pollution, ties to human health with asthma, diesel emissions, etc.), Biodiversity (conservation of biological diversity),Climate change (encompasses "global warming", greenhouse effect, loss of glaciers, climate refugees, climate justice, equity, etc), Conservation (nature and animal conservation, etc.), Consumerism (linking the state of consumers within the economy to environmental degradation and social malaise, planned obsolescence), Deforestation (illegal logging, impact of fires, rapid pace of

destruction, etc.), Desertification, Ecotourism, Endangered species (CITES, loss of species, impact of chemical use on species, cultural use, species extinction, invasive species, etc.), Energy (use, conservation, extraction of resources to create energy, efficient use, renewable energy, etc.) are all associated with Environment-depletion and preservation.

The objective of this quiz programme is to give brief information about environment-the Do's and Don'ts and to instil in the young minds the idea to participate in the conservation and protection of environment. Its goal was to turn the participants into positive change agents who sincerely care for the environment.

Since it was Covid Lockdown time, the event used google meet and slido app to make the quiz more interactive and interesting. The students participated with complete confidence and interest. The event made students understand the mistakes they have done and wrong practices they have followed towards environment. The main aim of the event was not to select winners and runners-up. It was focussed on giving knowledge to the participants about environment. It's not a simple topic though, as it is everything-Environment is everything around us, including us.

Students were quizzed on environment related pointers like, Water pollution is primarily caused by----. The precautions to be taken when the ozone level is high. The particle present in particulate matter---------, which is called as secondary air pollutant?, and many more totalling to twenty.

The winners of the quiz were announced in the end. Thekkanath Steffi Joseph (I Year BSC CJP) bagged the first prize by answering 17 right answers out of 20, Monika (I Year BCA) bagged the second prize by answering 16 right answers out of 20 in 5:21 time length and Prashanthi (II Year MSC Psychology) bagged the third prize by answering 16 right answers out of 20 questions in 5:27 time length.

Students were able to learn the acceptable behaviour towards environment, disciplined activities towards protection of environment.

Desalite's Nature Club-2021
Report on World Environment day Quiz

Title	I pledge…
Date of Event(s)	5 June 2021
Department / Association /Cell / Committee	**Desalite's Nature Club**
Venue (Mention the platform if it is Online)	Google Forms
Number of Participants	365
Target Audience	500

Event Coordinators	Dr. Madhuramozhi V, Prof. Indra Kumari V Prof. Madhusudan M

The world is not to be put in order. The world is in order.
It is for us to put ourselves in unison with this order. - Henry Miller

Desalite's Nature Club, St. Francis de Sales College, Electronic City, Bangalore, celebrated World Environment Day-2021 by taking pledge to protect the environment.

World Environment Day is celebrated annually on 5 June. It has as its theme to Celebrate Biodiversity, which according to the United Nations is an urgent concern. World Environment Day 2021 marks the beginning of the UN decade on Ecosystem Restoration - a global mission to revive and restore ecosystems. The UN Decade on Ecosystem Restoration is a movement to restore the balance in nature to bring harmony between nature and people. Ecosystem restoration means assisting in the recovery of ecosystems that have been degraded or destroyed or conserving the ecosystems that are still intact. We all can

protect the very essence of life on our planet - the rich biodiversity and vibrant ecosystem mosaics that the species thrive in.

In order to create awareness in the society to conserve environment, an online pledge was put forward on the World Environment Day, 5 June 2021 by the Desalite's Nature Club. Goole form with the message for the pledge along with a brochure was posted in different WhatsApp groups and participants were invited from all over India. The form included information like name of the participant, Email ID of the participant and their designation (student, faculty or any others). We had also requested them to mention the name of their institution or organisation, place and course or department concerned.

Desalite's Nature Club forwarded a poster to take pledge. The poster included requests like, Don't use plastic cutlery, use areca or steel cutlery, don't use plastic water bottle, bring your own glass/steel bottle, don't use plastic carry bags, bring your own cloth bags, don't take food parcel in plastic covers/boxes, bring your own container, do not litter, dispose waste in the bins, avoid single use pens and use fountain pens. Participants were asked to choose one or more options from the above list or from their own to take their pledge.

The pledge reached out to around 365 environmentalists. 86.6 % of the participants were students, 8.8% were faculty and the rest involved others. The student category included undergraduate, post graduate and school students. The respondents were from Kerala, Gujarat, Bangalore, Electronics City, Jigani, Hebbagodi, Hosa road, Huskur Gate, Padur, Anekal, Kelambakkam, Hosur, Erode, Vandalur kolapakkam, Chennai, Hebgodi, Samathuvaburam mambakkam, Thirupalya village, Balagaranahalli, Coimbatore, Pudupakkam, Kittiganahalli, Nilambur, pudupakkam, Panangattu Pakkam, Channapatna, Tirupur, Siriseri, Nanjanapuram, Changalpattu, Velichai, and Hodike Hosa Halli.

Participants pledged to save trees, save nature, avoid plastics, conserve water, use organic products, use cycles, use areca cutlery or steel, dispose waste in proper bins, carry their own bags, cloth bags, to avoid single use pens and use fountain pens, recycle waste paper, not to cut trees, plant more trees, to not to spit in public places, not to burn plastic items that emits toxic substances and the like.

The pledge concluded with a thank you message to the participants, urging them to plant a tree on that day, and be proud that they were part of this environment movement to protect, conserve and to nurture nature.

The team of Desalite's Nature Club is very thankful to the Principal and the Vice Principal of the college and the management for helping to see a successful pledge drive.

The Principal

St. Francis De Sales Degree College, Banglore

Sub: Paryavaran Samrakshan Gatividhi National Environment Youth Forum 2021

Winning of Medal

Dear Sir / Madam

On behalf of Paryavaran Samrakshan Gatividhi and Manav Rachna International Institute of Research and Studies, we heartily congratulate you for Winning [illegible] to Ms. Kavya G.L, your University Student at Grand Finale of National Environment Youth Forum 2021 **under the** aegis of Paryavaran Samrakshan Gatividhi – One Nation One Drive on 26th January 2021. We would further like to thank you for providing overwhelming response as your University Students and Faculty members [illegible] 25000 students from 75 Universities and [illegible] enthusiastically participated in the Online Group Discussions and significantly contributed towards finding collaborative solutions towards Sustainable Environment.

We are happy to share the [illegible] and Medal won by your University student Ms. Kavya G.L and would like to appreciate the role played by her [illegible] Grand Finale by sharing very relevant and important aspects concerning the Environment theme assigned to her. Her significant contribution shall help in providing collaborative solutions to reduce environment exploitation and help in its conservation.

Looking forward for your support and cooperation in future [illegible]

Best wishes & regards,

Dr. N. C Wadhwa, IAS (Retd.)

Director General, MREI

Organizing Team,

Environment Youth Forum 2021 (EYF 2021),
