A FRANSALIAN INSTITUTE OF HIGHER LEARNING

Department Green Initiative

Department of Business Administration

Title of the Best Practice is *TRANA- Reduce and Reuse waste* and the objectives of the Practice is To save trees and to conserve forest

TRANA is a best practice where students will collect the notebooks which were used by the students in the previous classes, remove the unused pages and make a fresh note book ready to use. These notebooks are given back to the students at a cost less than market price.

This practice will help us to reduce cutting of trees for making notebooks. To raise the level of environmental awareness and shape the environmental attitudes of society by promoting the principles of sustainable development.

Department of Science

The Department of Science in collaboration with all its associations conducted a department activity named "*Experiment & Experience 2023 and E-waste collection Drive*" on the occasion of World Environment Day on 5th June 2022

The event showcased live experiments and demos. The exhibition gave a real time experience to all those who are interested to experiment science. Various working models from electronics, Mathematics and physics explained many daily life science concepts as well as innovative solutions to many of the problems they face. IC club exhibited the best out of e-waste which was very colourful. The chemistry lab showcased a wide range of charts and facts that helped the visitors to explore the materials that they use in daily life. Experiment and experience made the visitors from other disciplines to experience the fun and facts through models and experiments. All the experiments and models were based on sustainable practices.

Department of Humanities

The title of the practice from the Department of Humanities is "PACK IT GREEN" which in simple terms specify the usage of paper bags for the betterment of the mother earth. The Department of Humanities adopted the usage of paper bags in the year 2021-2022 wherein the students had started making paper bags as part of their curriculum. The students have made around 100 paper bags and the same was distributed in the Huskur Market. This was made keeping in mind the objective of creating awareness among the people the importance of using paper bags. The year 2022- 2023 (even semester), the department have decided to convert the small curriculum activity into one of the best practices of the department. Faculties and the students will be contributing to the same for the betterment of the earth. Through this best practice, the department is trying to make it as a point that using of paper bags/ reusable bags being convenient and easy to use. It is the responsibility of all of us to "PACK IT GREEN".

A FRANSALIAN INSTITUTE OF HIGHER LEARNING

Department of English

The Best practice of the English Department is *Living Eco Literature- Each one Plant One*, Inspired by the writers on environmental issues, the department have planned to not just read and analyze the texts but to live them. The topics in Generic English textbooks such as Rachel Carlson's "The Obligation to Endure", Vandana Shiva's "Homeless in the Global Village," Niyi Osundare's "The Earth Never Dies," and Henry Cuyler Bunner's "The Heart of the Tree" have encouraged us to conserve the environment by practicing what we preach. As a first step, encouraged our students to plant a tree or any sapling. They were asked to submit a video or written document about the tree they had planted with the promise to conserve and protect it. They were also asked to understand the sapling's value to the environment. Follow up about the growth of plants is the proof of contribution to the society. Report written by students indicates the commitment made by them. Geo-tagged photos and reports are documented

Department of Kannada

The department of Kannada has taken a Green initiative. The best Practice of Department is "Recycling of Plastic pens" To prevent the soil pollution, the department has taken an initiative to collect the plastic pens and recycle it. And by encouraging the students to collect and refill plastic pens or encourage the students to use ink pens. The awareness regarding the soil pollution has been given to all the students and faculty members, all the students and faculty members are aware of ill effects of soil pollution.

Department of Hindi

The green initiative of department of Hindi is "Reuse of News Papers", Newspaper can be used in many other forms like making paper bag. News paper bags have eco-friendly benefits to people who use them. Through Paper bag we can help poor people like road wanderers. Students can learn to help the peoples and they become more responsible towards the society. The students were asked to prepare various Crafts and useful materials and also done an exhibition. Through an exhibition the students has created a large impact in all the fellow minds that paper bags, wall hangings, homely Decorative items and various types of Toy items can be created. Through the thought of using news paper, the department of Hindi is reaching all the souls.
