REPORT ON INDUSTRIAL VISIT

Title	Industrial Visit to Bamul Nandini Dairy Kanakapura.
Date of Event(s)	24-10-2024
Department/Association/Cell/Committee	School of Commerce
Venue (Mention the platform if it is online)	Kanakapura, Ramanagara district, 562117
Number of Participants	68
Target Audience	V SEM B.COM C Section

Resource Person(s) with qualification (if applicable):	NIL

Place of visit/ details of Industrial Visit place (if applicable):	KANAKAPURA CHILLING CENTER, BAMUL, Ramanagara, Karnataka 562117
Event Coordinator	Mr. Mohana C

The objective of the Program:

1. To help students understand how concepts learned in classrooms are applied in real industry.
2. To give students an understanding of the operational processes, equipment, and workflows used within a specific industry.
3. To allow students to observe current industry challenges, technological advancements, and innovative practices.
4. To observe the entire milk processing chain, from collection and pasteurization to packaging and distribution, giving students insight into how raw milk is converted into a consumable product.

5. To understand the quality checks, safety standards, and hygiene protocols involved in dairy processing to ensure the quality and safety of milk and milk products.

INTRODUCTION

An industrial visit to a Nandini milk dairy from V sem B.com C section Students on 24-10-2024 from St. Francis de sales college Autonomous. it provides a valuable opportunity for students to observe and learn about the dairy industry's processes, operations, and management. Dairy farms and processing plants play a crucial role in producing essential dairy products like milk, cheese, butter, and yogurt, meeting the daily nutritional needs of millions of people. This visit allows students to gain practical insights into the entire journey of milk — from its collection at the farm, through various processing stages, and finally, to its packaging and distribution to consumers.

In addition to understanding the technical aspects of milk processing, students also witness the application of strict hygiene standards and quality control measures necessary to ensure consumer safety. They gain exposure to the machinery and technology used in processing, learn about cold chain logistics to maintain product freshness, and observe sustainable practices implemented to reduce environmental impact.

Such an industrial visit enhances students' theoretical knowledge and prepares them for future careers by showcasing real-world applications of dairy science, food technology, quality assurance, and supply chain management within the dairy industry.

The outcome of the program:

- Students gain hands-on exposure to milk processing techniques, including pasteurization, homogenization, and packaging, enriching their academic learning with real-life applications.
- Students grasp the importance of logistics in the dairy industry, including milk collection, transportation, and storage, as well as the role of cold chain management in ensuring product freshness.
- Interacting with industry professionals helps students gain a clearer understanding of potential career paths in dairy technology, quality assurance, and food processing.

These outcomes collectively equip students with the knowledge and skills necessary to apply their academic learnings to future roles within the food and dairy industries.
