Anti-Ragging Cell

Annual Report

2022-2023

St Francis de Sales College is a campus that is free from any kinds of ragging practices. Yet, one among the important cells is Anti-Ragging Cell. The objective of the cell is to control ragging and ensure safe and a healthy learning environment in the campus. The posters were displayed with norms and rules to be followed in several places in the campus and also in the website. Students are made aware about the consequences if found guilty for ragging within campus. Students are given awareness about the mode of complaint if they face any issue during their orientation that is given in the beginning of the year. They are also given confidence that, the cell will take necessary actions and support them. As a result of these awareness and necessary precautions no incidents of ragging were reported in the college for the academic year 2022-2023.
