The objective of the program was to give students a glimpse of skills needed for their further professional growth. Also to inform them about the online certificate courses in their fields.

Desalite Skill Development Cell conducted a one-day skill development program for all final year PG students. The talk was arranged in cooperation with the Online Skill development Company MentorMind.MentorMind is a leading Online skill training platform, whose, virtual, mentored work experiences are designed to help students learn and build real skills in careers of their interest by giving access to real work in the form of Menternships that are certified by real companies.

The program started with Prof.Druv welcoming speakers.CEO of the company Luvieen Alva started the talk by asking the students about their job goals. By listening to their goals he pointed out the problems faced by the students in this journey. He showed some data about why students are not able to crack interviews. Also compared his time and the present situation and how difficult it is to get a high-paying job. The talk was continued by the COO of the company Suhas Kaul. He started mentioning the solutions for these problems. Even in the tire, one cities number of students who did their internship is very low. Due to this students have very low skill sets which are required for their future jobs. MentorMind comes to help here by providing students with skill training together with internships. So, whenever students go for an interview they are ready with their skills.The program ended with a question and answer section.

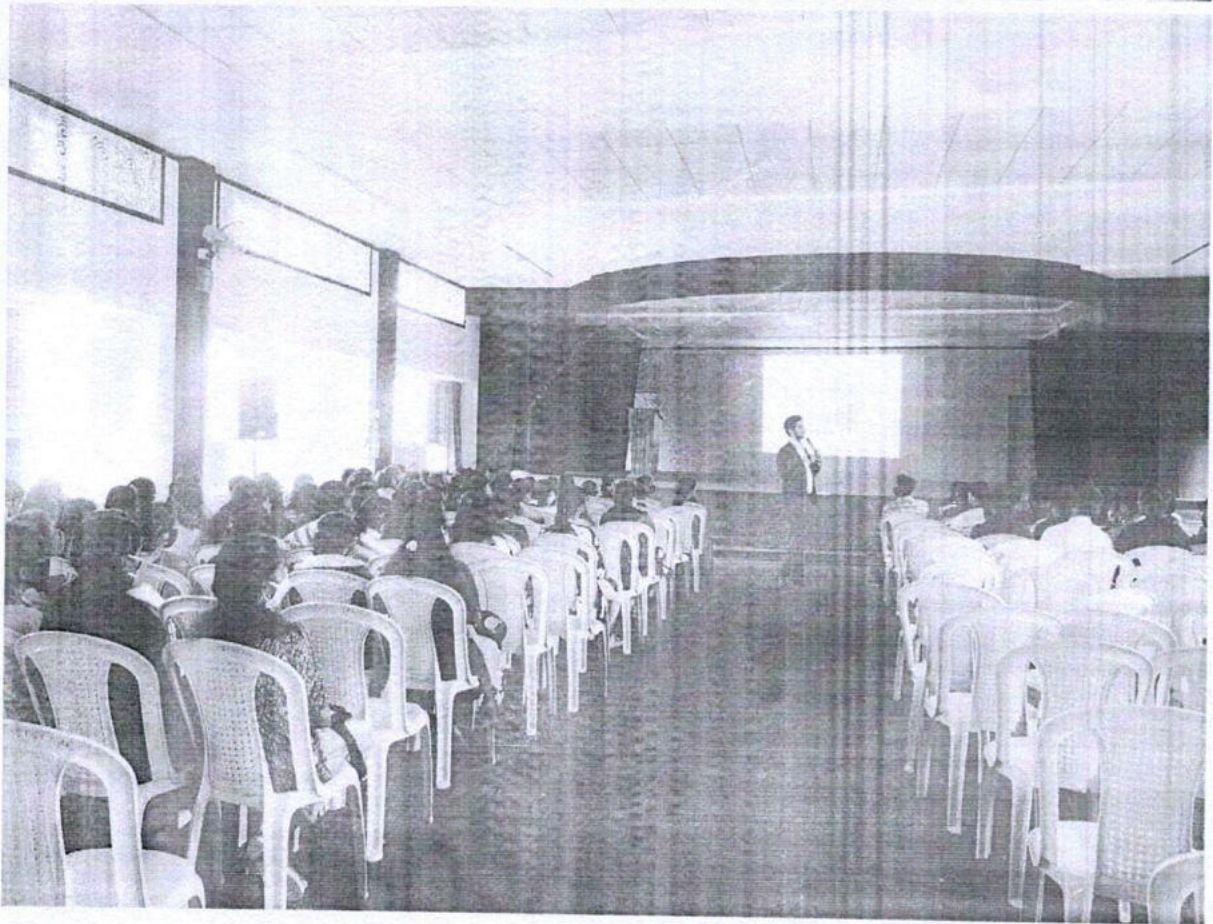

At the end of the program, students got a fair idea of how it is in the corporate world. They also understood that they are not able to earn skills just in a single day, they have to pursue some certificate course in their specific topics.
