Target Audience	BA students
Resource Person(s) with qualification	Dr Ram Kumar C
Place of visit/ details of Industrial visit place (if applicable):	NA
Event Coordinator	Dr Regimol, Prof Devichandrika, Prof Rakshitha, Prof Sonia, Prof Deepa

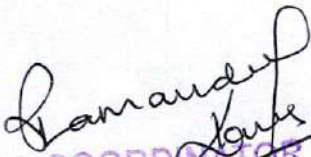

Highlights of the Program:

Start-up incubators help entrepreneurs refine business ideas and build their company from the ground up. Start-up accelerators provide early-stage companies that already have a minimum viable product (MVP) with the education, resources and mentorship needed to promote what might otherwise be several slow years of growth into a few short months. Most start-ups dream of being accepted into a world-class mentorship program and the chance to pitch big-name investors, but don't know the difference between two of the primary funding options that provide these opportunities: **accelerators** and **incubators**. A start-up accelerator is an organization that offers mentorship, capital, and connections to investors and business partners. It's designed for select start-ups with promising founders, as a way to rapidly scale growth.

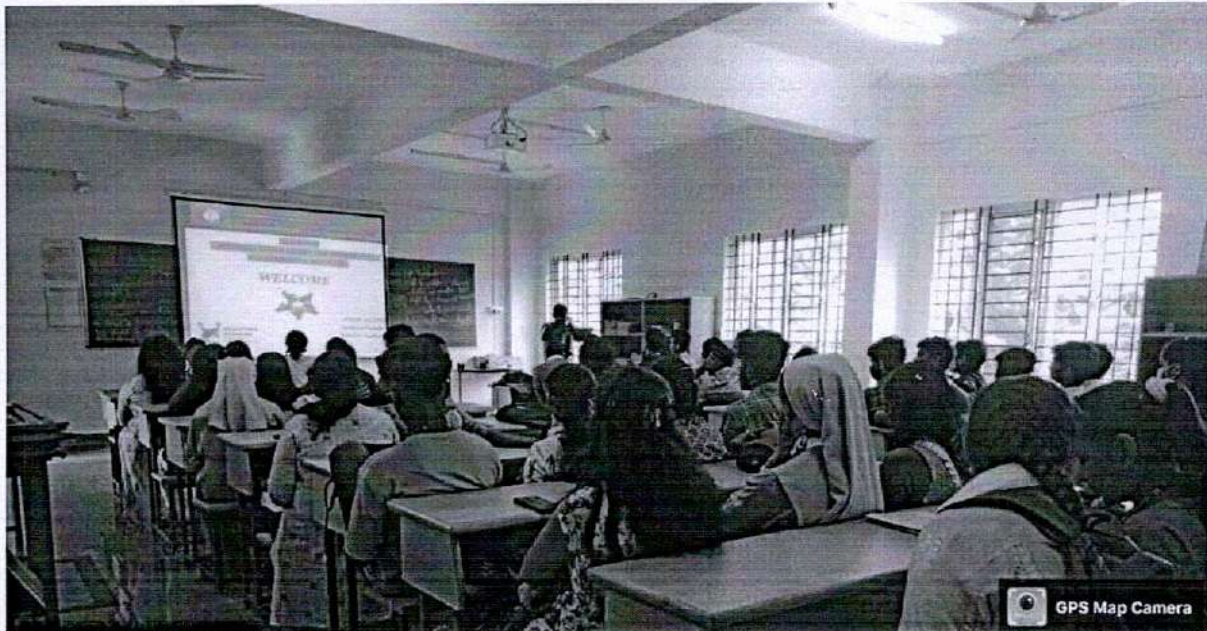

Linear model of Innovation

To conclude the program though distinct in its approach had a common objective – to help the faculties understand their competencies which can then be mapped to their research programmes. The programme received extremely positive feedback and the College intends to provide such opportunities to faculties in the future as well.
