Department/Association/Cell/Committee	Department of Science
Venue <i>(Mention the platform if it is online)</i>	Electronics lab
Number of Participants	30
Target Audience	30
Event Coordinator	Prof. Jenifer Sujitha G

Report:

Techno vision was conducted for the students of IInd Year Electronics to inculcate the knowledge of Electronics and add weightage in exploring new ideas experimentally. This was started at the starting of the semester and it gets ended on 27/1/2023. This activity was coordinated by Prof. Jenifer Sujitha G to the students of electronics. It was mainly focused to explore practical knowledge which will be useful for the students to do their projects efficiently in their final years.

Five batches were created and Topics of the projects were given to the students. Students were very much interested to do their projects and verify their outputs Eagerly. This activity will improve the practical knowledge of the students in the subjects they are studying and it will increase the confident about the subject matters.

It enables the student to be methodical in his approach to solving the research problem. It will makes student to cease to depend on the rule-of-the-thumb but to be scientifically minded. It also enables the student to be more organised with his work and do things in an orderly manner. Acquiring appropriate project writing skill gives the student a sense of independence and self-confidence which propel him to always insist on producing original research report. It develops the student the habit of tenaciously pursuing his goals to a conclusive end, which is the achievement of result.

OUTCOME:

Students learn to see nuance and multiple perspectives. hey develop iterative thinking. They become problem-solvers and critical thinkers. They learn project management. They become divergent thinkers.
