The Placement Cell of St. Francis de Sales College aims at making available quality placement opportunities for the students and Alumni of the college. It acts as an interface between the students of the college and various companies that come for recruitment. The placement cell maintains a constant contact with its students and also sends the students regular mails notifying them about the companies that would be visiting thereby encouraging them to apply for the recruitment procedure.

## About the Company

Next stacks is a product and an initiative of Appstone Pvt Ltd, with a vision to bridge this skill gap and make students industry ready. Their programs are curated to train students on technologies that are trending in the IT industry. The company believes in learning through practical exposure. They impart domain knowledge and relevant skills through project development, pedagogical tools, industry and alumni networks. In the recent past, Nextstacks has started gaining attraction among students and universities. This has led them to collaborating with a number of universities thereby upskilling the students and making them employable.

On 22<sup>nd</sup> May 2021 Placement cell of SFS College organised a webinar session, for the Final Year students of BSc and BCA. The session was conducted by Mr Dibyajyoti Nayak, Director at Appstone Pvt Ltd

The following are the main highlights

- 1) How these technologies are going to change the world?
- 2) What are the job prospects?
- 3) Roadmap to become an expert
- 4) Learn the basics of what is cloud computing and cloud service models

## The Benefits of AWS

- Ease of Use. ...
- Incredibly Diverse Array of Tools. ...
- Unlimited Server Capacity. ...
- Reliable Encryption & Security. ...
- Managed IT Services Are Available. ...
- AWS Offers Flexibility & Affordability.

In short, Amazon Cloud has a positive impact. It helps reduce costs of infrastructure, secures, backups and is a fast way to connect to millions. It is flexible and user friendly and all that one is looking for. It is an adventure backed with some useful tips that can help you in the future. **AWS Certification Training** is also available around the world, that can provide students in-depth knowledge of how AWS works and learn various aspects of its functions. Cloud Computing with AWS is thus an appreciable initiative for the ones who are making their first step in the field of business. This can act as a productive step for whoever who uses it.
