Class Activity

Title	Quiz & Pick and Speak
Date of Event(s)	17/02/2021
Department / Association	Cyber Spirits
Venue	Online
Number of Participants	55
Target Audience	I BCA
Organized by	Dr. K. Lokanayaki

Department of Computer Science organises Club Activities under the Cyber Spirits Association to impose Activity Based Teaching Method. Activity method is a technique adopted by a teacher to emphasize his or her method of teaching through activity in which the students participate rigorously and bring about efficient learning experiences. It is a student-centred approach. It is a method in which the student is actively involved in participating mentally and physically.

Public speaking and good communication skills are a part of Personality Development. Recognizing this need for students, the activity Pick and Speak was organized for I BCA students on 17/02/2021. It was indeed a great joy to see students speak on these topics. Each one wanted to exhibit their best eloquence. The competition brought out skills including quick thinking and oratory. Over all it was an enjoyable and a learning experience for the students as they could keep abreast with the happenings in the wider world around them. It was indeed a great joy to see students speak on these topics. The activity brought out skills including quick thinking and oratory. The quest for knowledge, like everything else of value, is not to be obtained easily. It must be worked for, studied for, thought for, and more than that must be prayed for. To encourage the students to widen their knowledge on networking Quiz Competition. They conducted the quiz expertly and confidently.

The quiz was divided into four rounds: Infinite Bounce, Double or Nothing, Reflex Action and Rapid Fire. Every round was a mixed bag with questions from sports, books, languages, vocabulary and science. All the students were at the edge of their seats to know the answers and the participants were very active. The questions put forth to the teams were intriguing, exciting and made the audience applaud excitedly when the teams answered correctly. This quiz truly was a learning experience, for both the audience and the participants.

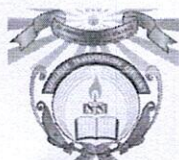

In the end, Boys won the first position, scoring a total of 55 points, Girls was placed at the second position with 35 points.

Title	Debate
Date of Event(s)	21/12/2020
Department / Association	Cyber Spirits
Venue	Online
Number of Participants	72
Target Audience	BCA
Organized by	Prof. Lakshmi C B

As a part of club activity Group Discussion was conducted for V Semester BCA students. The topic of discussion was "A GADGET FREE WORLD CAN U IMAGINE YES I CAN LIVE WITHOUT GADGET?" Students actively participated in the debate competition on Gadgets surround us a boon or bane.

Activity was boys' team vs girl team Ramya R was made as score board in charge and students came up with few interesting valid points as follows:

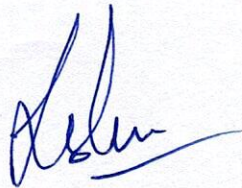

Wherever we go, whatever we do, we need a gadget by our side. Be it mobile phones, tablets or any other electronic device, we cannot imagine our day without the help of these gadgets. There has always been a debate on whether gadgets are a boon or a bane to the society. While one set of people consider them a boon, there are many who consider it a bane. Some people feel that we are way too dependent on our gadgets and feel handicapped without them.

Nowadays, we usually get many hours of entertainment by sitting on our sofa in front of the television, commonly known as the Idiot Box. This makes us extremely lazy. In the past, when people got bored, they used to engage in some outdoor activities or go out for work. However, this practice is long gone. With the advancements in technology, the time that we spend with our loved ones has greatly reduced. We check up on them without actually checking up on them. All we do is text them and that is usually the only form of conversation we have with them. No more family dinners together, people prefer to surf the

net or watch movies rather than hang out with their family and friends. Another common practice is the use of online bookstores. No more libraries and real-time bookstores. We get all the books that we need online and download them. Gone are the days when people used to search through piles of books for the book they want. Gadgets are extremely popular for causing health problems. Our vision is the first thing that is affected. This happens when we stare at the computer screens for too long. Many kids also get addicted to their gadgets. Other problems include insomnia, obesity, hearing problems, just to name a few.

Conclusion:

As you know how the technology is being developed, now in this generation gadgets are the part of our life. Having gadgets in your life is a mixed package. There are ways in which it makes your life easier; it can connect all the electronic communications in your life into a small device, store a warehouse full of data, connect people around the globe and give everyone an electronic multi tool with dozens of apps chock full of useful information.
