### SEMINAR ON DATA SCIENCE & CLOUD COMPUTING

<b>Title</b>	Data Science & Cloud Computing
<b>Date of Events(s)</b>	26 – 29 Oct, 2021
<b>Departments/ Association/ Cell/ Committee</b>	Department of Computer Application in collaboration with Research Cell
<b>Venue (Mention the platform if it is online)</b>	Session 1: Business Lab Session 2: Auditorium Session 3: Auditorium
<b>Number of Participants</b>	Session 1: 80 (BSc Mec & CJP), BCA – 5 <sup>TH</sup> Sem Session 2: 164 (All BCA) Session 3: 164 (All BCA)
<b>Target Audience</b>	BCA, BSC (MEC & CJP) 1 <sup>ST</sup> year Students

<b>Event Coordinator Resource Person</b>	Prof. Lakshmi CB Session 1: Prof Margeret Savitha Session 2: Mario Vimal Jones Session 3: Dr. Nazura Javed
--	---

Department of Computer Applications in collaboration with Research cell organized an Seminar 2021-22- " Data Science & Cloud Computing". Due to this growing extent of data, there is vital requirement for techniques to obtain valuable insight on it and thus at the same time, there is an urgent requirement for talented professionals with adequate data science skills. These seminar series enhance the vibe and its career opportunity available in the field of data science. Most of the Students are looking for a lucrative career in this particular domain.

About Seminar:

Seminar series aims to foster a research culture among students and Faculty members. These lectures provide them with information on current trends and applications in the dynamic world of research in numerous disciplines

Electronics City P.O., Bengaluru - 560 100

Artificial Intelligence (AI), Machine Learning (ML) and Data Science (DS) are the pillars of the fourth industrial revolution thus the following were the three day sessions

**Session 1: "Cloud Computing Principles"**

**Session 2: "Technological advances in Artificial Intelligence"**

**Session 3: "Technological advances in Machine Learning"**

Day 1 :Prof Margret Savitha on "Cloud Computing Principles"

The Day 1 a welcome address was delivered by Mahalakshmi Student of 1<sup>st</sup> Semester BCA, Prof Margret Savitha Having 11 years of academic experience pursuing Ph.D. from Mother Teresa University. Has various certifications in Data Science Machine Learning etc from "Alison institute" United Kingdom , Johns Hopkins University and University of Michigan. Prof Savitha started her session with the basic concepts of cloud computing and she emphasised on the revolutionary paradigm through which every organization can optimize their information and communication technology (ICT).

The resource person explained various types of services available how Cloud computing transforms IT infrastructure it let us "plug into" infrastructure via internet The focus of the discussions of the first session were around opportunities and challenges with a specific view on unique opportunities on cloud computing.

**Objectives :**

- Expand the knowledge on cloud computing
- To understand all services provided by cloud computing
- To learn the architecture of cloud

The day 1 session of infinity guest lecture ended by felicitation of the Guest by HOD Prof Sailaja, also students interaction & queries where answered.

Day 2

Mr Mario Vimal Jones Session on "Technological advances in Artificial intelligence" The virtual Guest lecture was well-received by all BCA Students in the day 2 session. Session Began with a welcome address of Mr Mario Vimal, Technology Analyst at Citi bank Chennai, Having recently graduated from National Institute of Technology Trichy, who has several internships in Android application development, Web development and MI/AI. He was the Co-founder of Delta Winter of Code. Mr. Vimal working as Technology Analyst at Citi Building APIs for commercial cards powering millions of transactions. His ability to adapt to the changing environment that relies on online collaboration technologies in the midst of the global pandemic was an eye opening to every students.

The Session focused on Artificial Intelligence with a goal to understand how machine learning fits into the Data analysis & its predictions. Mr Vimal also discussed machine learning model formats, requirements for protecting machine learning models using simple examples.

The discussion solicited insights to help students inform the role of edge computing in machine learning training and interactions with current scenarios. The session ended with exchange of queries and interactions by the Students.

Day 3: Dr Nazura Javed “*Technological advances in Machine learning*” Session began with brief introduction of infinity and welcome address if the resource person Dr Nazura who is Currently working as HOD, Dept. of Computer science in St. Francis College, her career as a computer science professional has spanned nineteen years including an academic experience of 11 years and software industry experience of 8 years. Dr Nazura’s domain of research is machine learning and social media analysis and have published book chapters and papers in reputed, refereed journals like Springer Nature, CRC, IEEE Xplore, and other Scopus indexed/Web of Science indexed journals. She worked in senior faculty positions in academic institutions under VTU and Bangalore University. The session started with interaction “ Does the machine work on its own”? Students participated actively answered the queries, Dr Nazura reiterated the basic algorithm that helps us to build and apply prediction functions with an emphasis on practical applications.

Session ended with felicitation by Prof Annie christila and vote of thanks by Bhavana Vth semester BCA .

#### **The outcomes of Guest Lectures**

- Understand the components of a Machine Learning algorithm.
- Apply Machine Learning tools to build and evaluate predictors
- How Machine Learning uses computer algorithms to search for patterns in data
- How to uncover hidden themes in large collections of documents using topic modeling
- How to prepare data, deal with missing data and create custom data analysis solutions for different industries

**Feed Back Form: <https://forms.gle/62AGxGcnY6Ak1Wst8>**

**Attendance : Hard Copy**
