Report on Career Counselling – Awareness about Industrial Jobs

Date: Sep 05th, 2018

Venue: Seminar Hall

Organised by: Placement Cell

Career Counselling session on "Awareness about Industries" was conducted for the students of PG, B.Com, BBA, BCA, BSC and BA. Awareness on current industrialization was highlighted to students. Students were informed of "Industry 4.0" practices. Industry 4.0 is the subset of the fourth industrial revolution that concerns industry. The fourth industrial revolution encompasses areas which are not normally classified as an industry, such as smart cities, for instance.

Although the terms "Industry 4.0" and "Fourth Industrial Revolution" are often used interchangeably, "Industry 4.0" factories have machines which are augmented with wireless connectivity and sensors, connected to a system that can visualise the entire production line and make decisions on its own. "Industry 4.0" is an abstract and complex term consisting of many components when looking closely into our society and current digital trends.

To understand how extensive these components are, here are some contributing digital technologies as examples

- Mobile devices
- Location detection technologies
- Advanced human-machine interfaces
- Authentication and fraud detection
- 3D printing
- Big data

- Multilevel customer interaction and customer profiling

- Cloud computing

ABB:

ABB is a pioneering technology leader in electrification products, robotics, motion, industrial automation, power grids, serving customers in utilities, industry, transport and infrastructure globally. Continuing a history of innovation spanning more than 130 years, ABB today is writing the future of industrial digitalization with two clear value propositions: bringing electricity from any power plant to any plug and automating industries from natural resources to finished products.

As the title partner of Formula E, the fully electric international FIA motorsport class, ABB is pushing the boundaries of e-mobility to contribute to a sustainable future. ABB operates in more than 100 countries with about 135,000 employees.

Career counselling session on "Industry 4.0", directed the new generation students to a desirable career in a world of sweeping changes. The session directed the students into a bright future by giving them proper direction, bolstering their confidence and instilling in them the power of self-esteem. This session helped to reinvigorate their entity and make them prepared for the competitive world.
