Report:

The Add on Course “ Environment management and impact assessment” is an endeavour to make the students, the upcoming generation aware on the relevance of environment management systems. The various disasters in the past, current climate regimes and uncertainties about future calamities are some of the reasons for which a need of new approaches and policies with respect to environment was emerged. Measuring the extend of damage may make one to thing on the consequences. This add on is an effort to give an exposure to some of the aspects that can lead to a sustainable environment through environment management and impact assessment.

The course coordinators Dr. Nebula Murukesh and Ms. Umamaheswari U. are experienced in handling various aspects of environment management. The add on course was conducted in two modules. The module 1 consisted of the topics that give an idea on the need of environment management and various terminologies used in environment management and impact assessment. The details of EIA and EMS were explained through Module 2. Also, an introduction to ISO 14001 and green audit was also part of this course. The assessments were designed in such a way to make the student capable to understand the concepts of green audit.

The outcome of the program: Through the programme the students could appreciate the purpose and role of EIA in the decision- making Process. They were acquainted with the environmental management system and its benefits. Also the programme could develop basic skills to conduct environment Audit.
