Folk Song is a song originating among the people of a country or area, passed by oral tradition from one singer or generation to the next, often existing in several versions, and marked generally by simple, modal melody and stanzaic, narrative verse.

"A people without the knowledge of their past history, origin and culture is like a tree without roots.." says Marcus Garvy. Culture makes people understand each other better. And if they understand each other better in their soul, it is easier to overcome the economic and political problems faced by modern societies and nations. Folk songs are songs which originated among the people of a country or area, passed on by oral tradition from one singer or generation to the next, often existing in several versions and marked generally by simple, modal melody and stanzaic, narrative verse.

Education is meant to bring one back to the traditions and the values of the society which form the modern world. To instill in our students, a love for their culture, a folk song competition was held on 16th June, 2023 in Room no. 201 with 06 participants from various streams. The main objective of conducting this event was to inculcate in the students a sense of belonging to their regional language and native culture. The participants prepared very well and sang folk songs reminiscing the good old culture and days. The rhythmic rendition of the songs took everyone back to the villages which are the heart of India. Many from the audience had the desire to have more such competitions and to include folk dances as well for competitions in the college so that they could learn more about their own backgrounds and hand it over to their younger generations. It is imperative that we keep alive our own past and traditions in this fast moving world which has a tendency to forget everything.

The first prize was won by Eric Anton of I B.Com A section followed by Shilpa of the same class. The cultural committee has decided to have more such competitions in the coming days.
