How to Build My Career Map

Date: 14 March 2019

Venue: Business lab

Organised By: Placement Cell

REPORT OF THE EVENT:

A career map is a sequence of jobs that leads to your short- and long-term career goals. Some follow a linear career path within one field, while others change fields periodically to achieve career or personal goals. Career maps typically refer to either your path through an industry or your path through an organization. For example, if your goal is to become a principal, you'd typically start as a teacher and work on your administrative credentials while teaching. If you're in a large district, you might chart a path within your district. You might become a department head and then advance to a position as an assistant principal.

On this thought, a session conducted on 'How to Build My Career Map' for the undergraduate and post graduate students of SFS College on 14th March, 2019 at 10 am. Prof. Xavier Stalin was the resource person for the event. With a rich and diverse experience in teaching and career counselling, Prof. Xavier has been conducting workshops for professionals and students.

The session began with a short video which explains about the career building process. The video was followed by an interaction with the students where the facilitator discussed about the inputs of the video. Then he went on to speak about the career building Process and its Challenges. HE explained about the objectives and advantage of career building process.
