About The Session:

On 28th January 2023, Saturday, the Research and IP Cell of St. Francis De Sales College, Bangalore organized One Day National Webinar On "Detecting Fake and Cloned Journals". The resource person for this seminar was Dr. Abhishek Sharma, Assistant Professor, Department of Business Administration, Bareilly College, Bareilly, Uttar Pradesh. Academic publishing has changed tremendously with the spread of open access journals and the shift to online publishing. There are now more journals for authors to publish their work in than ever before. Nowadays people start fooling scholars; they accept articles for publication along with authors' fees without performing promised quality checks for issues such as plagiarism or ethical approval. Predatory Journals take advantage of authors by asking them to publish for a fee without providing peer-review or editing services because predatory publishers do not follow the proper academic standards for publishing, they usually offer a quick turnaround on publishing a manuscript. Dr. Abhishek Sharma, clearly explained the topics in a lucid way. More than 1300 participants from Kanyakumari to Kashmir were participated through Google meet and you tube live. The participants came to know many things about fake and coned publication

DR. ABHISHEK SHARMA is presenting

WHAT ARE FAKE JOURNALS?

- Jeffrey Beall described it as organizations that "publish counterfeit journals to exploit the open-access model in which the author pays."
- Deceptive
- Lack of transparency
- Dupe researches

DR. ABHISHEK SHARMA is presenting

FEATURES OF FAKE AND CLONED JOURNALS

- Publish the papers where you neither a user nor an owner
- Look good websites with a single institutional name
- Focus on specific scientific area and not on multidisciplinary
- The website focuses on submitting and publishing but doesn't carry about
- Have a website for the journal but a note to publish the papers on Elsevier and Wiley head office website as a reference
- Always hesitate to contact with the JCI
- Always request papers for full papers from their website
- Highly experimental paper in the field of user's field
- The journal in such journals, extremely online paper submission, with a fake name and (fake) ISSN
