The Placement Cell of St Francis de Sales College in association with the Department Of Computer Science conducted a Pre Placement Training Session for the Final Year students of BSc Over 60 students attended the session. The programmes focused on personal growth, interpersonal effectiveness and skills that are vital for placement and career growth. A career guidance programme – Pathway to success for the final year students was organized on 29/05/2021. The programme benefited the students to face interviews

and gathered knowledge on aptitude skills. The objective of the event was to enrich the students about the various career opportunities which these courses offer.

The main objective of the Placement cell is to provide personal and career related support to the students with special emphasis on training the students on employability skills and to provide placement in various Industries/Organizations by arranging campus recruitment drives.

Placements give students the opportunity to gain skills specific to their subject or industry of choice as well as the employability skills required for real-life work. It also increases their knowledge of an industry or sector, allowing them to make better informed decisions about future career choices.

Highlights of the session:

- The benefits of career planning were explained to students
- Career planning helps the individuals have the knowledge of various career opportunities, his priorities etc.
- It helps him select the career which is suitable to his life style, preference, family environment, scope for self-development.
- It helps the organisation identify talented employees who can be promoted.
- Internal promotions, up gradations and transfers, motivate the employees, boost up their morale and also result in increased job satisfactions.
- Each employee will wait his turn of promotion rather than changing to another organisation. This would lower employee turnover.
- Increased job satisfaction enhances employee commitment and creates a sense of belongingness and loyalty to the organisation.
- An organisation with well-designed career plans is able to have a better image in the employment market and it will attract and retain competent people.
- The courses to opt after BSc were explained
- Upcoming professional courses in Science

Advanced Postgraduate Programme in Intelligent Systems & Robotics: Two years full-time postgraduate programme, which has great openings in the domain of Robotics and Future Intelligent Systems. Eligibility is B.Sc, MSc in any discipline of Medical Sciences, Pharmaceutical Sciences, Life Sciences, Chemical Sciences, Physical Sciences or equivalent.

Diploma in Fisheries Technology/ Aquaculture: Apart from self-employment, there's scope for joining services in various fisheries that require expert professionals in fish breeding, marketing, preserving, quality control of fish, harvest management, etc.

PG courses in Biological & Life Sciences: This can be a regular M.Sc. programme or a postgraduate diploma programme, depending on the institute in which you join. Common specialisation subjects in Biological and Life Sciences include plant and animal biology, genetics, ecology, cell biology, ecosystems, oceanography, astronomy, microbiology, biochemistry, anatomy, etc. Such programmes offer job prospects in education.

government and R&D institutes.

MSc/MCA/MBA/Machine Learning/Data Science

To conclude the session though distinct in its approach had a common objective – to provide the student with the best of knowledge in that particular area. The session received extremely positive feedback and the College intends to provide such opportunities to students in the future as well.
