The objective of the Program:

The **Department of Computer Applications** in collaboration with **Placement cell** organized a session on **Orientation and Placement Registration** on 29th November 2022 for BCA 5 SEM students. **Professor Madhusudhan** instructed the students during this session.

Prof Madhusudhan guided the students regarding the placements offered by the college placement cell. He clarified the students with how difficult it is to get a job after graduation without any experience apart from the qualifications. Getting placed for company before completing degree helps us in developing skills and builds confidence. A good placement is a great way to gain experience in any type of particular field. He also made the students aware by the rules and regulations about the placement cell and also about the etiquettes to be followed during the placement. He also mentioned about the various good companies where the students can get placed. This session encouraged each student to achieve better grades, improve their practical skills, employability skills and achieve a better career. He instructed about how we can set ourselves apart from the competition. It's a great idea to take one step ahead, especially if we want to advance in our career.

He motivated the students by defining how well the placement cell would assist and guide the students in securing suitable career opportunities, which was an added factor of the session.
