## Report on Plogging-2019

On 7<sup>th</sup> December 2019, Under the guidance of our ANO Lt Sampath Kumar R, NCC Cadets of St Francis De Sales College took an initiative of collecting the litter by jogging.

The best way to practice waste management is to form a group of like-minded people. Acquiring separate storage drums for storing the dry waste and wet waste will be a great way to store bulk waste.

Plogging is the term used for a recreational activity which is a mix of jogging and picking up litter. We went to areas of our institution surrounding Hebbagodi to kammassandra, where we collected the waste which was segregated into wet waste (organic waste), dry waste (wood, metal & glass), recyclable (paper, plastic & textile) and non-bio degradable waste (organic matter), later we disposed the waste in a proper manner.

Picking of litter is important because if the litter is not segregated properly, it all gets mixed up in landfills. The dangers of this is that they all leak after a period of time, resulting in leachate or toxic soup at the bottom which can contaminate ground water and release explosive methane gas.

When we segregate litter there is reduction of litter that gets landfilled and occupies space, air, and water pollution rates are considerably lower.

We would like to Thank Our Commanding Officer of 1 KAR BN NCC, Our Principal, Vice Principal and Our ANO Lt Sampath Kumar R for providing us an great opportunity to be a part of world's largest cleanliness drive " Swachhata Pakhwada.
