REPORT ON ADD ON COURSE

Title of the Course	PYTHON PROGRAMMING
Date of Registration (From- to)	1/12/2023 TO 29/02/2024
Date of Commencement	01/12/2023
Date of Completion	29/02/2024
Platform (Online/Offline)	ONLINE
Duration	30 HOURS
Target Audience	V SEM BSC (45 Students)
Registration Fee	RS.100
Course Facilitators	Prof. SARANYA C Dr. S. SIVAGAMI
Module 1 (Complete syllabus)	• This module introduces the reader to the Python programming language and to some powerful tools for writing and running Python code. We will discuss what Python is, what it means to be a programming language, as well as what happens when you install Python on your computer. • Next, we will step through the process of installing Python on our computers. Specifically, we will be installing the Anaconda distribution of Python,

	which includes critical 3rd party libraries and tools that are essential for doing any STEM-related work (e.g. NumPy, matplotlib, and Jupyter).
Module 2 (Complete syllabus)	• This module is designed to introduce you to the essential elements of Python. • Begin by studying the basic types of objects that are built-in to Python, which will enable us to work with numbers, text, and containers that can store a collection of objects.
Objectives of the Course	To learn how to write functions and pass arguments in Python. To learn how to build and package Python modules for reusability. To learn how to read and write files in Python. To learn how to design object-oriented programs with Python classes. Python is commonly used for developing websites and software, task automation, data analysis, and data visualisation. Since it's relatively easy to learn, Python has been adopted by many non-programmers, such as accountants and scientists, for a variety of everyday tasks, like organising finances.
Outcome of the Course	• Create your first program in Python IDLE. • Implement OOPs concepts in your programming. • Use Arrays, and Data structures. • Create an application with the support of graphics in Python. • Implement error handling.
Name and Contact details of Programme In charge and Course Facilitators	Programme In Charge: Dr. S. Sivagami, 9789237429 Course Facilitators: Spoken Tutorial in collaboration with IIT Bombay
