M. Com students

1. We are facing Shortage of faculties.

One faculty is handling two subjects. So it is difficult for us to cooperate with the subjects under one faculty.

2. We have dissertation paper in 4 th semester. so we need to work on that and We have to visit the company for our dissertation work to get certificate for the submission of university..

So kindly allow us to work on the project

And allow us to go out for the project work after 12.30 pm.. So that we can able to submit the project within the given time.
