**REPORT ON**  
**TREE PLANTATION PAKWADA - AN AWARENESS TO PROTECT**  
**ENVIRONMENT**

**Date:** 12<sup>th</sup> JULY 2020

**Venue:** St. Francis De Sales College – Virtual Platforms

**Conducted by:** NCC Unit

**Attended by:** NCC Cadets at their respective homes surroundings

**Organized:** NCC Unit of St. Francis de Sales College, Electronic city, Bangalore

On 12th July 2020, under the guidance of our ANO Lt Sampath Kumar R 40 cadets participated in "Tree Plantation Pakwada" activity. The activity was performed by the cadets who came together by virtual platforms. They performed individually at their houses due to the COVID19 pandemic Situation

At present situation it is very necessary to grow as much as trees possible as it increases oxygen level in environment which is the most essential gas on globe. Fresh and pure air is essential element to boost our immunity which helps us to fight against COVID19. The act of planting trees raised the awareness of the vital role it plays in the environmental development. There was a discussion and initiative to make our surroundings greener. Planting a tree is a lifelong investment. How well this investment grows depends on the type of tree selected and the planting location, the care provided during planting, and the follow-up care after planting.

Getting your new tree off to a healthy start will help the tree mature to its full size and ensures it will provide environmental, economic, and social benefits throughout its lifetime. The initiative implemented alongside environmental education and awareness, to promote environmental stewardship, encouraging a sense of responsibility of the planted trees. This special action indicated a lasting tradition of promoting tree plantation in the projects in cooperation with local communities, government forest offices, and government and state run educational institutes. Here are various reasons behind tree plantation but the most important are forestry, land reclamation, and landscaping. Each process of tree plantation is important and unique in its own way. Every tree makes a difference in the environment and it will help the people at large. Thus for this purpose all the cadets took part actively in this activity.

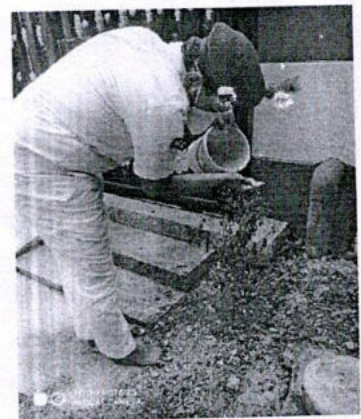

This activity was assisted by LT Sampath Kumar.R. As part of the programme, each of the cadets Planted Tree samplings at their respective home surroundings. This promoted the idea of planting and saving trees for a better society. Cadets identified the aim of having this activity and shared the responsibility of promoting a better environment. People who are not aware of the importance and values of planting trees are given an opportunity to realize and do the needful. The need to save the environment is emphasised and people are made aware of the situation and the need to have an ecological balance.

In order to sensitize NCC Cadets towards the need to preserve our environment and ecology, tree plantation drives are organized and this initiative witnessed good response. This also encouraged the cadets to continue this work even in the future. This also motivated Cadets family members

NCC Cadets from St.Francis De Sales College would like to thank the Commanding Officer of 1 Karnataka Battalion NCC, Adam Officer, PI Staffs, The Principal, Vice Principal, management & ANO Lt.Sampath Kumar.R for their constant support, guidance and encouragement for conducting this activity.
