- Learnt about soil ph level
- Learnt about the friendship between earthworms & farmers.
- Learnt about mixed farming.
- Learnt about how maintain the plants and farm lands without harming them.

Report:

About the event :

Outreach programs are beneficial not only by providing the students an academic foundation but also to develop their self-confidence, leadership qualities, and their responsibilities toward the community.

What is an Outreach Program?

An outreach program aims to help, uplift, and support those who are deprived of certain services and rights. It involves giving learning, social planning, health support, and other projects for their welfare.

As usual, a program must be organized to use resources and aid to fulfill a goal. Successful community outreach programs must have project leaders at their core. They take charge of promoting, searching for donors and volunteers, and recording details about the outreach. Planning programs for the community can help solve a greater need for a long-term plan toward social progress. Further, other program members must join hands to plan and source out more assets and means to create more long-term solutions and voluntary efforts.

Benefits of Community Outreach Programs

Educate: These aim to give educational support for children and out-of-school individuals. This relates to the goal to help uproot poverty on a larger scale.

Inspire and uplift: Through various types of outreach programs, these also build avenues where people can thrive with support with others. Being stewards of inspiration and encouragement contribute to building empowered stewards of change

Bring joy: For volunteers alike, an outreach program relieves them from a lot of stress. Donors and volunteers feel more at peace and fulfilled knowing they've done their part; while recipients feel they're not alone in their journey.

On 23rd Dec of 2022, DFFA(DESALITES FARMER FRIENDLY ASSOCIATION) organized One day Outreach program with the banner of RAITHA MITRA SAMAGAMA.

On this day around 40 volunteers of DFFA from SFS College actively participated. On this day all the volunteers were informed to visit a village as an Outreach programme regarding farmers -students interaction. Accordingly we scheduled everything and informed the students to gather at in front of the college. After that we left the college exactly at 09:30 am and we reached a village name called HALEHALLI its located at nearby attibele. Once we reached there we brought all the students to the farm, where farmer also was available his name called Mahesh.A. He is one of the skillful agriculturists in that village. all the students gained the knowledge from the farmer. Farmer was giving very valuable information of how he is doing agriculture and he shared all the experience which he has in the agriculture field. He has provided valuable information to the students and students were asked to write the things which the resource person is shared and students did the same. After that there was a session called face to face interaction between and farmer and students, where the students asked varieties of questions about agriculture to the farmer. And after that students had lunch there and finally we

felicitated that Resource person of the day Mr. Mahesh.A on behalf of SFS College. And after that all the students shared their experience with the farmer. And finally we left that village 12:30 pm . we came to college campus at 1pm.

Overall it was such a grateful event organized. We should thank everyone who were having active participation and co-operation and for making this event turned in to great success.

The outcome of the program

- Learnt about rain water harvesting
- Learnt about how to cultivate the land for farming
- Learnt about soil ph level
- Learnt about the friendship between earthworms & farmers.
- Learnt about mixed farming.
- Learnt about how maintain the plants and farm lands without harming them.
