REPORT

On 29th January 2022 group discussion was conducted on the topic “Online v/s offline “. At the beginning of the session everybody seemed to speak up and boost their confidence. Class was dividing in to 3 groups focused on positive impact, second group focused on negative impact and the third group chose to be neutral highlighting both the benefits and challenges. Points discussed in the favour of the topic were like “it makes people’s broad minded, helps in expanding knowledge, make easy to find a job, promotes digital marketing, access to more information and enhance a social connectivity and communication”. This means against the motion were leads to false trap, self of obsession and materialism, means of spreading fake news, promotes gossips, trolling and addiction.

Students summarized and concluded by highlighting major points of discussion. The activity gave away for broader approach and thanking ability.

Positive Outcome:
