Bharath Packaging

Manufacturing of : Corrugated Box, Two Ply Rolls

25/1 B, Siddappa Layout, Church Road, Yarandahalli, Bommasandra Indl Area, Bangalore - 560 099.

Dear Sir

Sub: Letter of Introduction

St. Francis de Sales College in its mission of empowering the youth and providing higher education, strives to give various chances to students so that they will have experiential learning and thereby grow into responsible employees in the future. This is done through field study, industrial visits, mini projects etc.. The following students would like to visit your industrial unit on 13 June, 2022. Thank you for allowing them to visit your esteemed organisation. Kindly do the needful so that they would get a chance to learn by observing the processes in your industrial unit.

Students visiting your industrial unit:

1. Kavya K.M.
2. Gayathri P.
3. Pavithra S.
4. Pavithra N.
5. Sindhushree

Thank you

Yours sincerely

REPORT ON INDUSTRIAL VISIT.

Date : 13th June 2022

Subject : Industrial Visit

Industry : Bharath Packaging

Name of the Student : 1. Kavya. K.M
2. Gayathri. P
3. Pavithra. S
4. Pavithra. N
5. Sindhuhrree.

On 13th June 2022, a memorable and informative Industrial visit was arranged to team of students, by the department of Commerce for the 2nd year students. It was a half day visit covering a small business unit namely Bharath Packaging. As students, our aim is not only to gain theoretical knowledge but also learn practical aspects of a plant, company, layout of a plant, human resource management and the functioning of a business unit.

We were guided by a Asst. Manager, who explained in detail about the production process. During the visit, we jotted down some notes and interviewed the labourer or worker about how the local products could be marketed overseas. We also managed to collect as many as good photographs, visiting card and sample product relating to this. We learned various things about how the production happens and what all are the materials supplied to it, and where the product is supplied and for what it is used.

The product they produce are the "cloth strips" as it is a small scale business unit, the quantity of producing the product is not a particular quantity.

For the manufacturing, the raw material is processed in the stages, batching, mixing, cutting, moulding and drying. Accordingly these are separated and the damaged or unmoulded strips or waste product are left over in the processing machine and again it is recycled automatically. For one minute maximum 15 units of strips that will be produced.

The Small Scale Business unit consists of 6 workers, on a contract basis, and the Business is running under a Godown.

It was an informative, interesting and a successful visit. We from commerce department, we learned few processing methods. We express our thanks to Mrs Jescentha Mathew, HOD of Commerce department, who permitted us to go on to the visit. It can be concluded that the visit was successful and we believed that our objective was achieved. We learned something new and beneficial for us.
