Report :

These days it is becoming challenging for women to strike a balance between work life and family, Motherhood is extremely hard and cannot be compared to a career. Motherhood doesn't end if you have a career and cannot be compared to a career as Motherhood is a lifetime commitment... It's the act of becoming a mother and everything involved in that season of life, which involves a career for some. Many mothers feel compelled to stay home with their children. It's a natural feeling. It is something that is not spoken of a lot, as motherhood transforms women incomprehensibly. Career and motherhood can obviously go hand by hand. You don't have to compromise career to choose motherhood or motherhood to choose career. But to choose both, we have to be more active, positive, motivated, patient and make sure that every day we have some "me time" to collect yourself to deal simultaneously with both motherhood and career.

In view of women's day celebration Desalite women empowerment cell conducted a story writing competition on the topic "Navigating career and Motherhood", on February 28th, 2022, the event was conducted in seminar hall at 2:15 PM.
