DETAILED REPORT:

INTRODUCTION

Utility of ICT in Education Information and Communication Technologies have recently gained ground in all the sectors of St. Francis de Sales College. Libraries are being computerised, E-Journals are first replacing the printed journals, E-learning platforms are providing teaching learning materials to both teachers and students. It has been observed that a high level effective use of ICT has brought tremendous change in the field of teaching and learning process in the following ways:

- ICT has a positive impact on student's performance
- Implementation of ICT enhances the motivation level of students towards teaching learning process
- ICT also helps teachers to work in teams and share ideas related to college curriculum.

OBJECTIVES:

Videography refers to **the electronic capture of moving images on electronic media**, such as digital cameras, videotapes, and streaming media. This includes specific methods of video editing and post-production as well.

The main Objective of this session to enhance the skills of a students as a knowledge exchange between the students.

METHODOLOGY:

Videography is explained to the students how to add songs and how to edit the videos to enhance the videography skills for the students.

Tools of explained to students how to create the video with photographs, or taking photos, videos and edit the old videos and also to add songs to the videos.

EXPECTED OUTCOMES:

Students had a hands on session and practiced how to edit the photos, videos and adding slow motion videos etc.,
