Report :

Values are our guiding principles. Values reflect our sense of right and wrong. Values help us grow and develop. They help us create the future we have envisaged for ourselves. The decisions we make every day are based on our values.

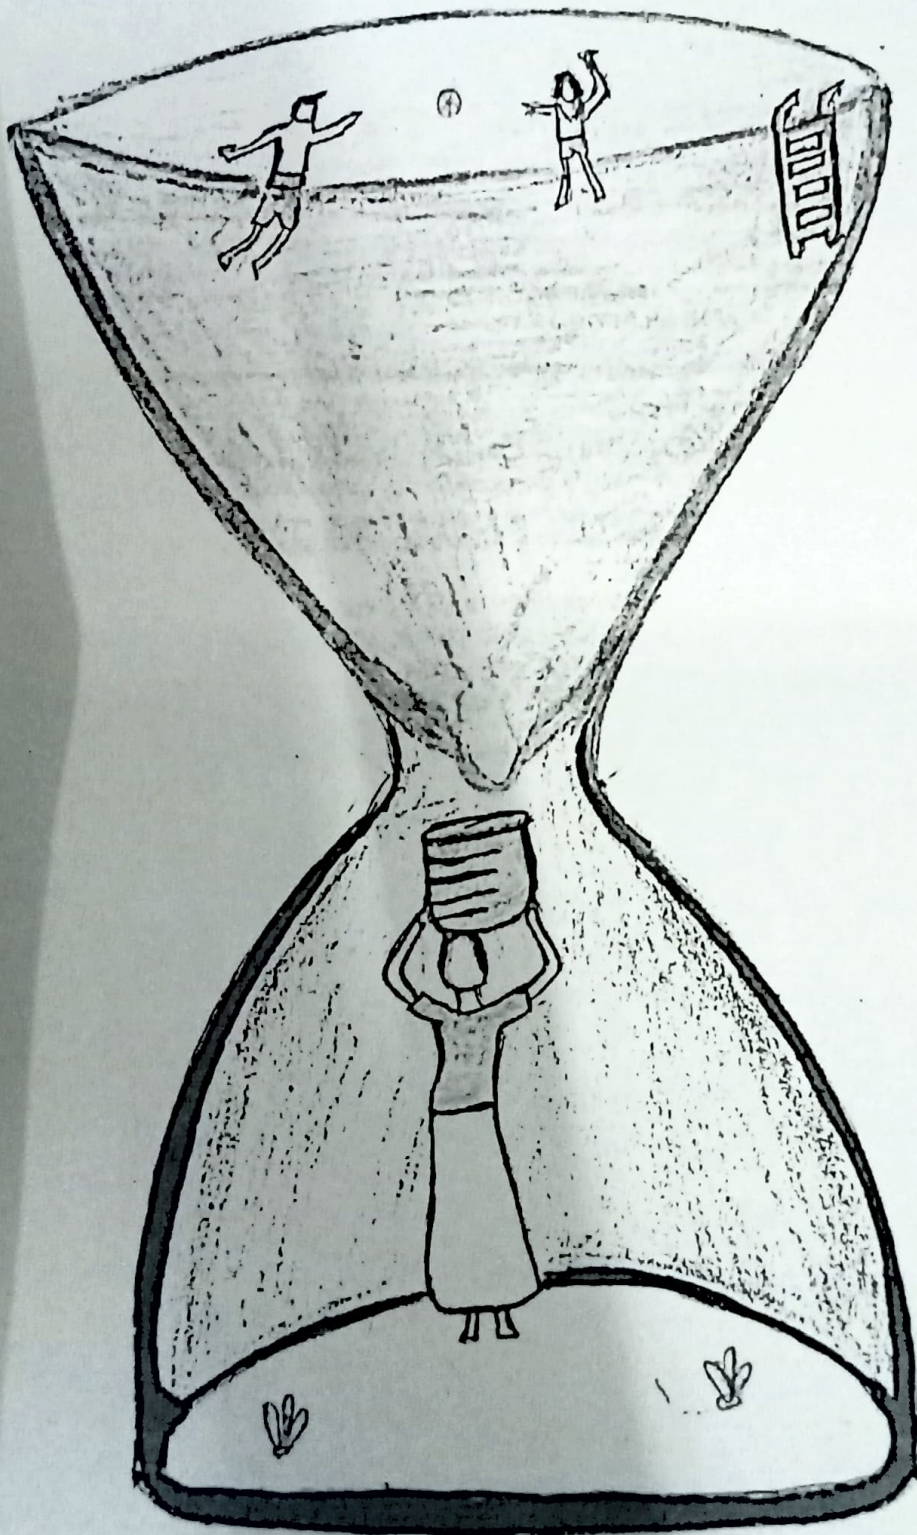

Human values are formed from everything that makes us human: Our biology, our upbringing, parents, family both immediate and extended last but not the least from society. Keeping these in mind in order to create an awareness of values in life, Values are important as these connect us to the community or society at large. Values guide us, how to behave if we have to be accepted and respected in society. The more aligned our values and in turn our actions with society's accepted set of values, the more accepted we are in society. The higher we rise in the social hierarchy, the better we implement the value hierarchy, making us more virtuous.

The Desalite Christian Association (DCA), organised a poster making competition on 5th March 2022, with the theme "Importance of Values in life". This event was exclusively for UG and PG students of St Francis De Sales College. It was an online competition, students were asked to submit their creative work to deas@stscollge.in. Dhanalakshmi. K of second year BBA had participated in the competition and submitted her creative work.

Certificate would be provided for the participation.

Once you carry your own
water you will learn the
value of every drop. Save
Water Save Life...
