Activity	Prof. Lakshmi CB & Prof. Gowthami
Resource Person	NA

The Department of Computer Applications conducted a Social Extension Program in the Sarkari Kiriya Prathamika Shale (Government Primary school), Kammasandra on 12th March, 2022 ; students of Vth & 1st Semester BCA oriented the primary students of standard 1 to 7 on Hardware components "**Know the Hardware**".

The broad objective of the Extension Program was to inculcate Technical competence among the school students and to develop skills for learning. The students of the department in group of 3 involving 6 students in each group explained the basics of computers and also emphasised every component on the motherboard.

Students explained "**What is hardware?**"

Computer hardware is the bits and pieces that make up computers, hardware components include the hard disk drive, its processors, video cards etc. Peripherals like the monitor, mouse and printer, or storage devices - which you plug into your computer - are also considered hardware.

Main Objectives of the Activity

- **Educate:** To give educational support for children and out-of-school individuals.
- **Inspire and uplift:** Through various types of Extension programs, these also build avenues where people can thrive with support; Being stewards of inspiration and encouragement contribute to building empowered stewards of change!

- **Bring joy:** For the student volunteers of BCA , this Extension program was "Experiencing the Joy of Sharing Knowledge".

The School in charge Ms. Uma and Ms. Kavitha acknowledged and thanked the institution for the program also welcomed volunteers for many such activities in future.

Outcomes:

An Extension program is a complete entanglement between the community and institution. Extension programs not only benefits the community also.

- Extension activities develop learning and applying knowledge to studies, community services, a sense of responsibility toward the unreached communities;

Community Extension will strive to ensure that students are emotionally, mentally and physically have the ability to make responsible choices and take responsibility for the benefit of society and wellbeing.
