OBJECTIVE:

- Access of material any time, anywhere
- Easy to use
- Additional e-journals link facility.
- Fast and quick access of desired information.
- Access of material with multimedia(Video, animation, sound, graphical form etc.)
- Time saving
- Cheaper than print materials.

INTRODUCTION:

The term e-resource refers to **all the products which a library provides through a computer network**. The electronic resources are also known as online information resources covering bibliographic databases, electronic reference books, search engines for full text books, and digital collections of data.

The Chief librarian has took over the session after the students was been divided into batches to explain about how to make use of the online e-resources available in our college library. She has also highlighted the usage of the same. User id and password was been given for the further usage from the place wherever the students are can be used.

Digital tools and platforms are becoming ever more integral to our personal and working lives. Digital learning increases access to education and knowledge while empowering students with a mindset and capabilities that sets them up for success in their present and future.

OUTCOME:

The session went on well, the students after using electronic devices and the internet, they understood that they can learn from the comfort of their homes. Such classrooms support both real-time and recorded learning and help teachers create a flexible class schedule. Digital platforms connect various information sources around the world to create an integrated information hub.
