OBJECTIVE:

E-resources have a prominent role to play in **supporting higher education and in fulfilling educational objectives**. E-resources are rich source of information for those students who want extra learning materials in addition to their regular classroom activities.

INTRODUCTION:

The usage of e-resources in higher learning institutions has become more popular in recent years due to their currency and rich content. Various studies have been conducted to realize whether the subscribed e-resources are effectively being utilized. Factors such as awareness, search skills, infrastructure, and lack of training have been pointed out as factors that influence usage of e-resources.

The primary purpose of the library orientation is **to let students know about the resources that will contribute to their studies**. The second purpose is to encourage students to do research to acquire the information related to their general education and professional formation.

N-List provides college, students, researchers, professors & staff to the opportunity to **deepen their knowledge using the e-resources through the server**. 6. All Govt aided colleges covered under Section 12B/2F of UGC Act are eligible to access e-resources through the N-LIST programme.

So, the majority of Faculty Members and UG Students use simple search whereas PG Students use **advanced search** as a search strategy while accessing N-LIST e-resources. search whereas 43.0% PG students used advanced search as a search strategy to access N-LIST e- resources.

That is why special orientation was been conducted separately for the PG students.

OUTCOME:

- Strengthening e-resources course content through periodical reviews. The College through Quality Assurance unit should encourage students to use relevant and current e-resources to ensure the best quality of research and academic outputs and to increase University ranking and visibility to the world.
- Conducting user needs assessment periodically. Librarians should conduct regular user studies to understand potential problems facing library patrons and address them accordingly.
- Offer continuous training since new students are enrolled each year. Librarians should develop and review training manuals to reflect new e-resources demand.
