Report on outreach Program

Date	: 13/04/2022
Time	: 9:10 am – 9:40 am
Venue	: Harohalli, Bangalore
Topic	: Awareness on saving plants
Organizer	: PROF. KARIBASAVANNA GOWDA G.
Organized By	: NSS UNIT
Target Audience	: General public

The outreach program was conducted by the department of Commerce on 13th April, 2022.

The purpose of the event is to spread awareness on saving plants and trees. The event also aimed at inculcate the practice of planting more trees and realise the fact that, we are not doing any favour to plant but to ourselves only. Because trees and plant life does not dependent on us but our lives depended on them.

The NSS volunteers had taken an initiative to conduct a event to provide awareness to the society on the significance of plants and trees. The students were asked to make placards on the slogans on saving forests and against deforestation. All the students of M.com I-semester have participated in making and writing the notice.

The below list of slogans was put up in the placards

- ❖ Save Earth Save Trees
- ❖ Want to live longer; plant Trees

- ❖ Plant tree today; reap the fruit in future
- ❖ Save trees and curtail climate change
- ❖ Plant more trees: make the environment pollution free
- ❖ Plant trees: Go Green
- ❖ Trees are the lungs of the world.
- ❖ Take care of Trees: it will take care of you
- ❖ Trees on; Global Warming Gone

Around 9.30 am on the junction of Harohalli near Doddamaralahaali the students were asked to form a line with the awareness slogan cards without disturbing the general public. They were made to stand on the sides of road with the poster for about, half an hour, ensuring the pedestrians, petty shoppers road side vendors and persons using vehicles able to view the cards. The event draws the attention of the people who ever seen. Few of the general public, took time to read the caption.

Positive Outcome:

The aim is to provide awareness the importance on saving trees. It is also noted fact that people who live near trees are healthier, fit and happier than people who do not. We can say that trees are very important and beneficial for every life form on earth. Without them, the survival of life on earth will become difficult and after some time every species starts to die because of lack of oxygen on the planet. So, to save our lives and survive we have to learn the importance of trees and also have to teach our students the importance of trees. The society also understand the significance of plant more trees.
